**Benchmark Ic.2.3:** Develop and provide training and technical assistance on the changes to Ch. DCF 56, Admin. Code.

Evidence of Completion: Training curriculum and summary report

## Ch. DCF 56 Foster Home Care for Children Administrative Code Training and Technical Assistance Sessions

## **Ch. DCF 56 Trainings**

The training and technical assistance on the changes to Ch. DCF 56, Administrative Rule occurred in various formats depending on the audience. For supervisors in the child welfare system, an overview was presented on the changes. For foster care licensors, two options were available:1) A one-day training for previously trained licensors who were provided training on the changes made to the licensing code; and 2) a two-day training for new licensors. Agendas for both the one-day and two-day trainings are attached with the PIP Q4 quarterly report. DCF is also in the process of creating an on-line training resource for new foster care coordinators to be a pre-service to the face-to-face Ch. DCF 56 training. The training will also serve as a resource to experienced licensors when questions arise.
